

A vibrant, cartoon-style illustration of outer space. The background is a light gray and white checkerboard pattern. Various celestial bodies are scattered across the scene, including a large orange and red striped planet at the top left, a blue planet with dark spots at the top center, a yellow planet with dark spots at the top right, a blue and green Earth-like planet on the left, a yellow planet with a red ring (Saturn) on the right, a purple planet with dark spots at the bottom left, a blue planet with a yellow ring at the bottom left, a red planet with dark spots at the bottom center, and a blue planet with light blue stripes at the bottom right. Two yellow rockets with red and orange flames are shown flying towards the right. Several yellow stars of different sizes are scattered throughout. Dotted lines in blue and yellow suggest orbital paths or trajectories.

*12 апреля 2022г*

# **День КОСМОНАВТИКИ**

**12 апреля весь мир отмечает День авиации и космонавтики. Наш детский сад, также не забывает про эту дату. Педагоги всех групп совместно с родителями подготовили выставки, провели интересные занятия, оформили группы.**

# Младше – средняя группа

# Группа раннего возраста.

A whimsical illustration of a night sky. The background is a light blue gradient filled with white and yellow stars of various sizes. In the center, a rocket ship with a white body and blue fins is flying upwards. To its left is a yellow planet with a smiling face and a ring. To its right is a brown and white planet with a ring. In the bottom right corner, a detailed, cratered moon is visible. The bottom of the image features stylized, layered mountains in shades of pink and red, with white, scalloped clouds in the foreground. A faint watermark 'masterfresok.ru' is repeated across the image.

**Спасибо за внимание.**
